

How to ease your mind about dNTPs in your molecular assays?

Discover security by design in 3 min

Ensure **security of supply** with...

Increased capacity

Flexible scalability

Safety in crises: pandemic ready

Why Roche?

Increase in the output of NucleoMix for **SARS-CoV-2** PCR assays

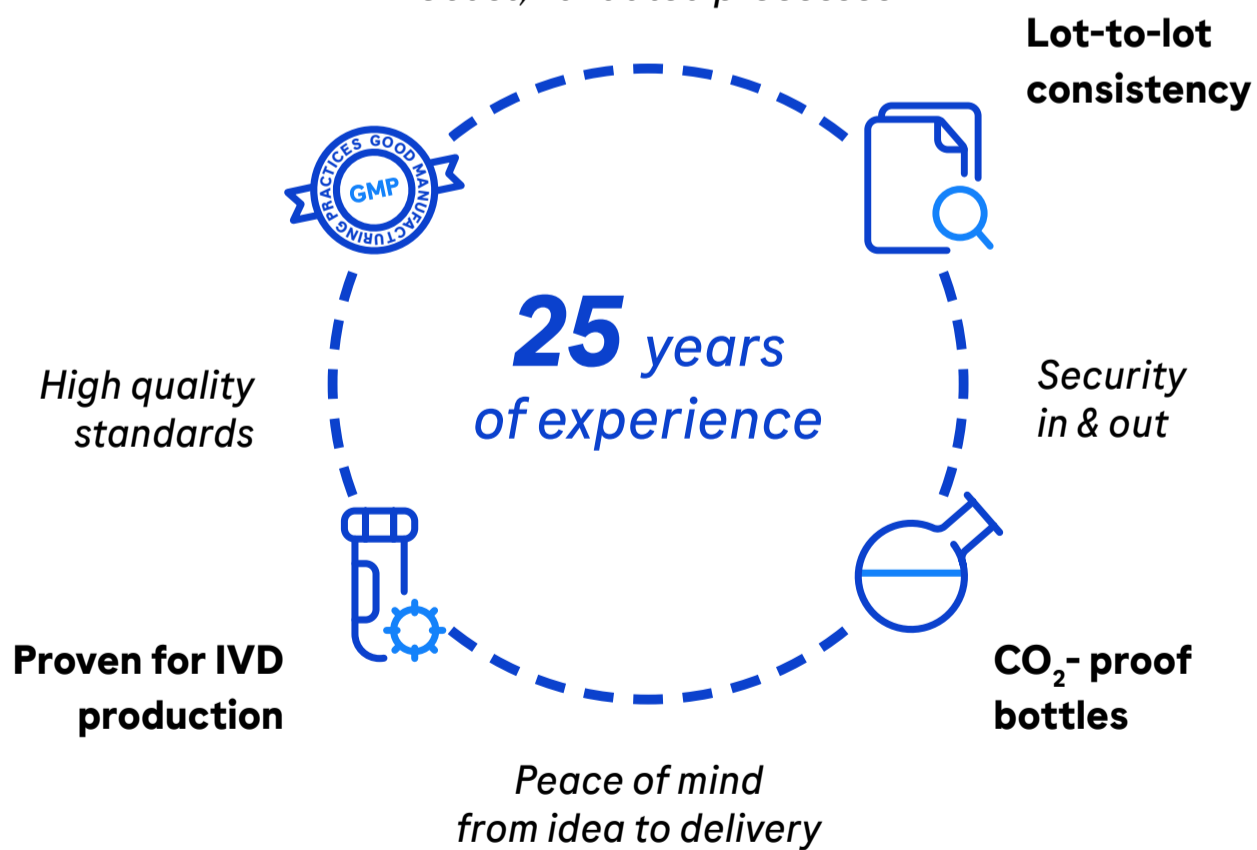

600%

> 40 000 L

volume of **GMP nucleotides** manufactured at our Penzberg site

No alarms, no surprises: quality from within

Robust, validated processes

Why Roche?

99.9% average purity of the last **1000 lots** of dNTPs
