

Roche CustomBiotech Product Catalog for Biopharma Manufacturing

CustomBiotech – We supply your next step

As partner and supplier for healthcare companies and manufacturers we streamline your operations, power your growth and deliver better healthcare for all.

Roche CustomBiotech has been a leader in supplying innovative, high-quality products to forward-thinking biopharma and diagnostics businesses for more than 50 years. As part of Roche we work with pioneering biopharma and diagnostic experts at one of Europe's largest and most productive biotechnology centers.

This is where Roche continually creates a wide range of drugs and diagnostics, including critical raw materials, ingredients, quality control kits and in-process analyzers.

Reliable access to these materials supports our customers in developing and manufacturing valuable new products and services, such as state-of-the-art mRNA-based vaccines or molecular POC kits.

Powering excellence for your development & manufacturing

Portfolio for manufacturing of Biologics

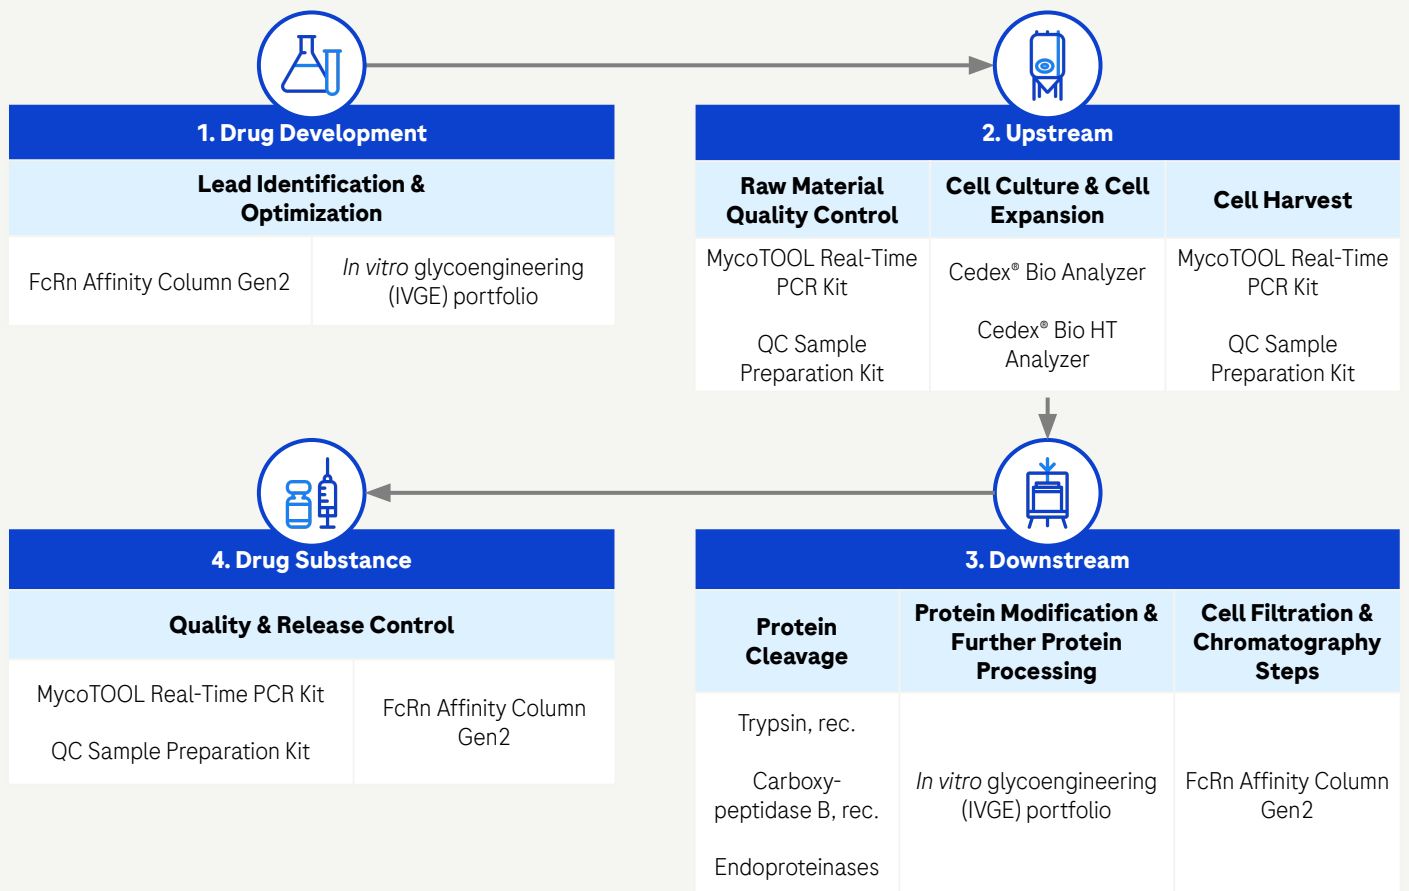

Biologics are an important drug class used in **oncology, anti-immunity, and chronic inflammatory diseases**. The drug therapy product's active substance is extracted or produced from a biological source.

Biologics include **monoclonal antibodies (mAbs)** and further therapeutic recombinant proteins.

The proteins are mainly produced by mammalian cells or bacteria.

With decades of experience in providing high quality raw materials, instruments and solutions for biotherapeutics manufacturers, we offer **proven solutions** for your unique process.

Propelling advanced therapy medicinal products from concept to commercialization

Portfolio for manufacturing of Cell & Gene Therapeutics

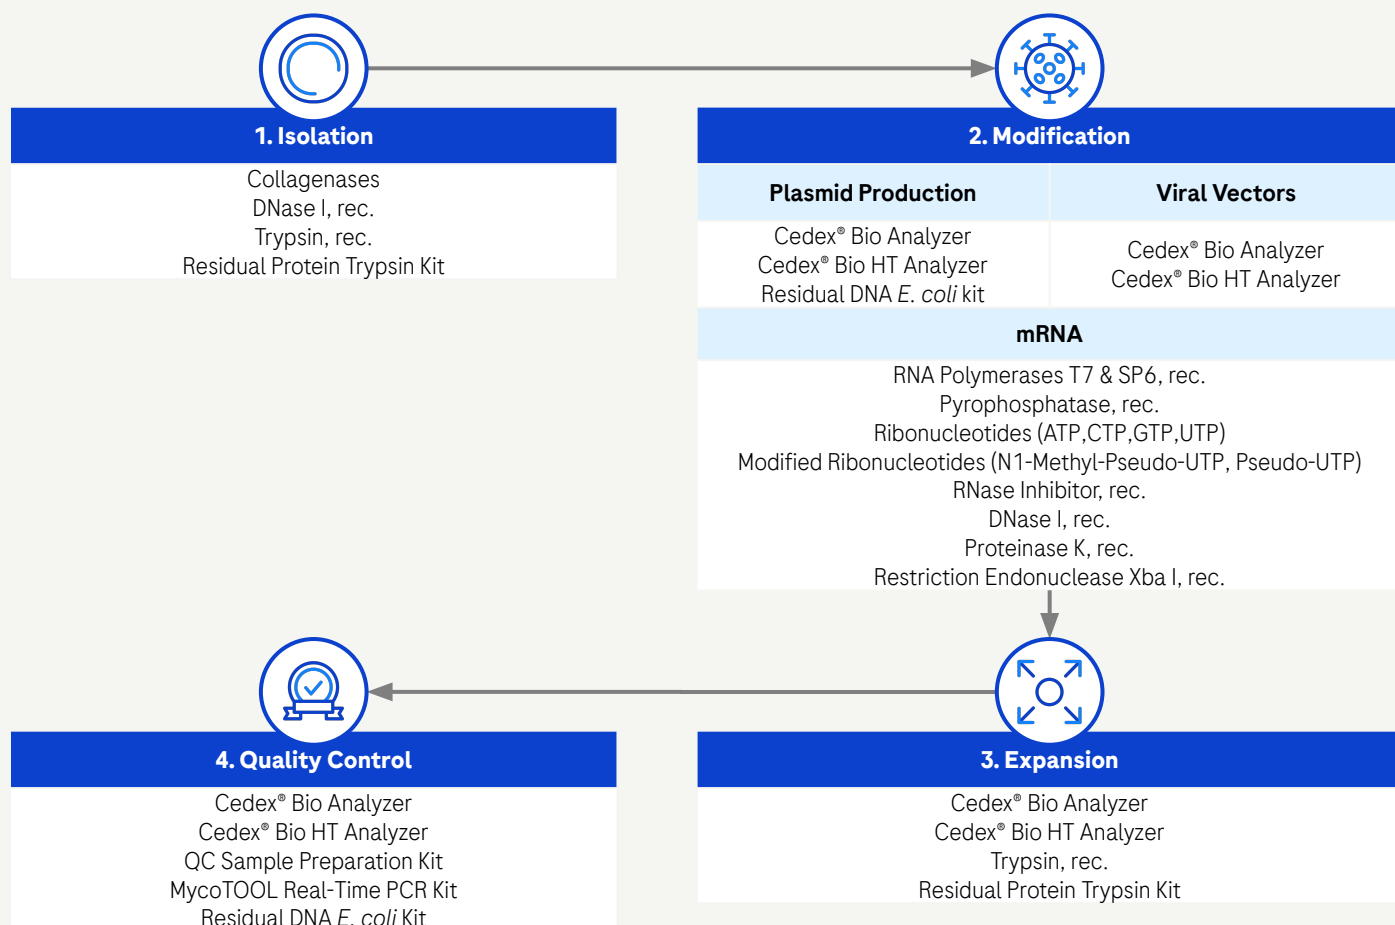

Cell and gene therapies have the potential to revolutionize healthcare by offering **unprecedented treatment possibilities**.* At Roche CustomBiotech, we understand the technical complexity involved in implementing transformative advanced therapy medicinal products (ATMPs).

Our commitment is to be your dedicated partner in providing **tailored solutions for manufacturing advanced therapeutics**. By utilizing precisely defined and scalable raw materials, coupled with robust quality control solutions, we support manufacturing efficiency and compliance with regulatory requirements.

mRNA raw materials: a clear path to market

Portfolio for manufacturing of mRNA Therapeutics

Design your mRNA manufacturing process with the **certainty of fit-for-purpose standards for raw materials**. Developed in response to customer requests,

CustomBiotech mRNA raw materials align to industry specifications and are produced in the state-of-the-art facilities and quality infrastructure of Roche Pharmaceuticals and Diagnostics.

GMP Grade and fit-for-purpose mRNA materials

GMP Grade & ISO 13465

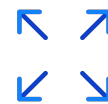

Animal-origin-free (AOF)

Antibiotic-free (β-lactam-free)

Extended Impurity testing
